

Tax Information

Tax rates are determined by the shipping address of an order.

State laws require Air-Tite to have an exemption certificate from all customers who claim a tax exemption. If the exemption certificate is not received, Air-Tite Products is required by law to charge tax on certain items in the states listed below.

Arizona	Indiana	Michigan	Ohio	Virginia
Arkansas	Iowa	Minnesota	Oklahoma	Washington
California	Kansas	Nebraska	Pennsylvania	Wisconsin
Colorado	Kentucky	Nevada	South Carolina	
Connecticut	Louisiana	New Jersey	Tennessee	
Georgia	Maryland	New York	Texas	
Illinois	Massachusetts	North Carolina	Utah	

If your business qualifies for a tax exemption, a properly completed exemption certificate must be submitted to Air-Tite's Tax Department. Once we have received your exemption certificate(s), your account will be updated within one business day.

If the certificate is processed before your order invoices, the tax will be adjusted based on the certificate. For a credit of tax on an already invoiced order, please contact customer service.

If the exemption certificate received is incomplete, a Customer Service Representative will contact you with the details needed to complete the certificate.

Please email your completed exemption certificate to salestax@air-tite.com or by fax to 757-340-2912.
