

Air-Tite Aesthetics

FLEX PRP

An accessory kit for PRP Procedures

The **Air-Tite PRP Accessory Kit** is a collection of high quality, globally sourced devices used in aesthetic PRP procedures. Created with the clinician in mind, the kit features:

- Flexibility for use with most PRP systems
- Cost effective, space-saving convenience of a single package
- Essential components for blood collection, fluid transfer and injection

Items in the kit are individually-wrapped and sterilized where appropriate. All items can also be purchased separately from Air-Tite Products (typically packaged 50 to 100 pieces per box)

Blood collection supplies

- Multi sample collection adaptor from EXEL International for use with tubes
- Winged scalp vein set from EXEL International
- 21g x 1.5" Precision Glide needle from BD (USA)

Injection is accomplished through high-quality needles from two of the world's top hypodermic suppliers:

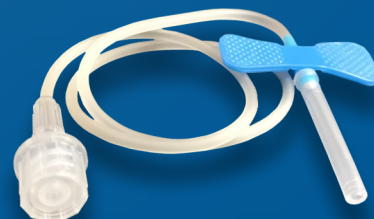

- 30g x 13mm Ultra-Thin Wall needle from TSK Laboratory (Japan)
- 33g x 8mm Ultra-Thin Wall Nanoneedle from Japan Bio Products (South Korea)

Syringes for withdrawal and injection are from Henke-Sass, Wolf GmbH (Germany).

- (2) 1mL syringes, (2) 5mL syringes, (2) 20mL syringes

Additional supplies to simplify the procedure

- Gauze
- Alcohol prep pads
- Tourniquet
- Low fluid loss syringe connector
- Transfer needle
